

## 2008 Course Catalog

As of March 25, 2008

**All dates and classes are subject to change.  
Please visit our website for the latest updates.**

**Automatic Detection & Suppression Systems:** This course is designed to give the fire officer, fire prevention official, and code enforcement official a basic understanding of the design and operation of fire alarm and fire protection system. This class is open to all firefighters.

**Dates: June 16<sup>th</sup> & 18<sup>th</sup>; 18:30 – 22:30**

**September 21st; 08:00 – 16:30**

**November 21st; 08:00 - 16:30**

**Instructor: Stephen Lane**

**Instructor: Stephen Lane**

**Instructor: Stephen Lane**

**Basic Vehicle Rescue – Awareness:** This course is intended for personnel who need to have an awareness of vehicle rescue operations and how to assist a rescue company at a rescue scene.

**Dates: August 16<sup>th</sup> & 17<sup>th</sup>; 08:00 – 17:00**

**Instructor: Tony Clouser**

**Basic Vehicle Rescue – Operations:** This course is intended for personnel who have already taken BVR-Awareness course in the past. This course teaches the student the use of hand tools in vehicle rescue operations and how to access and package the patient at the accident scene. Post rescue operations are also discussed.

**Dates: April 26<sup>th</sup> & 27<sup>th</sup>; 08:00 – 17:00** CLASS IS FULL

**September 28<sup>th</sup> & 29<sup>th</sup>; 08:00 – 17:00**

**Instructor: Dave Nichols**

**Instructor: Tony Clouser**

**Basic Vehicle Rescue – Technician:** This course is intended for personnel who have already have taken BVR-Awareness and BVR-Operations courses in the past. This course gives the student the knowledge of power tool usage and disentanglement techniques. At the end of this course, the student will be able to take the written Basic Vehicle Rescue Technician certification test.

**Dates: May 31<sup>st</sup> & June 1<sup>st</sup>; 08:00 – 17:00**

**October 18<sup>th</sup> & 19<sup>th</sup>; 08:00 – 17:00**

**Instructor: Dave Nichols**

**Instructor: Tony Clouser**

**Building Construction: Wood & Ordinary Materials:** The overall goal of this course is to provide knowledge about the classification system of buildings, the importance of fire resistance for structural support elements, and the risks associated with performing fire-suppression activities inside and around buildings involved in fire. One additional major goal of this course is to enhance the skills of emergency response personnel so that they can read a building correctly and apply the information to the action plan for the incident. This course is intended for fire response personnel.

**Dates: April 23<sup>rd</sup> & 24<sup>th</sup> (18:30 – 22:30), & 26<sup>th</sup>; (08:00 – 16:30)**

**Instructor: Stephen Lane**

**Calling the Mayday: Hands-on Training for Firefighters:** This course will certify that the student can call a Mayday over the radio. The firefighter will demonstrate their ability to call Mayday under various emergency situations a firefighter may find themselves in. The firefighter will perform these skills at the master level.

**Dates: June 22<sup>nd</sup>; 08:00 – 17:00**

**Instructor: Dan Hoff**

**Carbon Monoxide Detector Responses:** This course is a 4 hour lecture program designed to give responders the information needed to effectively and safely respond to incidents involving the known or suspected presence of carbon monoxide; particularly the activation of residential carbon monoxide alarms.

**Dates:** April 28<sup>th</sup>; 18:30 – 21:30  
July 1<sup>st</sup>; 18:30 – 21:30

**Instructor: Stephen Lane**  
**Instructor: Stephen Lane**

**Confined Space Rescue:** This 16 hour program deals primarily with rescues involving confined spaces. Subjects include definition, regulations, identification, needs, psychology, and techniques. Practical applications of rescue techniques are practiced in real confined spaces.

**Dates:** April 29<sup>th</sup> & May 1<sup>st</sup> (18:30 – 22:30), & 4<sup>th</sup>; (08:00 – 16:30)  
July 9<sup>th</sup> & 10<sup>th</sup> (18:30 – 22:30), & 12<sup>th</sup>; (08:00 – 16:30)  
September 2<sup>nd</sup> & 4<sup>th</sup> (18:30 – 22:30), & 6<sup>th</sup>; (08:00 – 16:30)  
November 1<sup>st</sup> & 2<sup>nd</sup>; 08:00 – 16:30

**Instructor: Stephen Lane**  
**Instructor: Stephen Lane**  
**Instructor: Stephen Lane**  
**Instructor: Stephen Lane**

**Emergency Vehicle Operations Course:** Sadly, a large portion of emergency responder deaths and injured occur as a result of motor vehicle accidents involving emergency response vehicles. Consisting of 8 hours of classroom and 8 hours of driving on a competency course, it will teach, reinforce, and review those issues and skills needed by anyone who operates a motor vehicle in responding to an emergency.

**Dates:** June 3<sup>rd</sup> & 5<sup>th</sup> (18:30 – 22:30), & 7<sup>th</sup>; (08:00 – 16:30)  
July 29<sup>th</sup> & 31<sup>st</sup> (18:30 – 22:30), & August 2<sup>nd</sup>; (08:00 – 16:30)  
October 1<sup>st</sup> & 2<sup>nd</sup> (18:30 – 22:30), & 4<sup>th</sup>; (08:00 – 16:30)  
December 3<sup>rd</sup> & 4<sup>th</sup> (18:30 – 22:30), & 6<sup>th</sup>; (08:00 – 16:30)

**Instructor: Stephen Lane**  
**Instructor: Stephen Lane**  
**Instructor: Stephen Lane**  
**Instructor: Stephen Lane**

**Entry Level Introduction to the Fire Service: (16 Hours)** This course is designed to introduce new firefighters to basic information including an overview of the fire service, fire service organization, firefighter safety, personal protective equipment, and terrorism awareness. This is the first of four courses in the curriculum.

**Dates** June 17<sup>th</sup>, 19<sup>th</sup>, 24<sup>th</sup>, & 26<sup>th</sup>; (18:30 - 22:30)  
June 18<sup>th</sup>, 19<sup>th</sup>, 25<sup>th</sup> & 26<sup>th</sup>; 08:00 - 12:00

**Instructor: Tony Myers**  
**Instructor: Stephen Lane**

**Entry Level Fire Ground Support: ( 48 Hours)** This course is designed to introduce new firefighters to fire ground operations including fire behavior, fire extinguishers, water supply, fire hose, ropes, and hazardous materials. This is the second of four courses in the curriculum.

**Dates:** July 7<sup>th</sup>, 9<sup>th</sup>, (13<sup>th</sup>; 08:00 – 17:00), 15<sup>th</sup>, 16<sup>th</sup>, 21<sup>st</sup>, 23<sup>rd</sup>, 28<sup>th</sup>, 29<sup>th</sup>, August 6<sup>th</sup> & 7<sup>th</sup>;  
08:00 – 12:00  
July 10<sup>th</sup>, 15<sup>th</sup>, 17<sup>th</sup>, 22<sup>nd</sup>, (26<sup>th</sup>; 08:00 - 17:00), 29<sup>th</sup>, (August 2<sup>nd</sup>; 08:00 - 17:00), 5<sup>th</sup>,  
7<sup>th</sup>, & 12<sup>th</sup>; 18:00 - 22:00

**Instructor: Stephen Lane**  
**Instructor: Rhonda Weaver**

**Entry Level Exterior Firefighter: (42 Hours)** This course is designed to introduce new firefighters to exterior fire ground operation including building construction, ladders, communications, protective systems/sprinklers, forcible entry, and fire prevention. This is the third of four courses in the curriculum.

**Dates:** April 13<sup>th</sup>, 27<sup>th</sup>, May 4<sup>th</sup>, 18<sup>th</sup>, & 25<sup>th</sup>; 08:00 – 17:00 **CLASS FULL** **Instructor: William Gross**  
August 26<sup>th</sup>, 28<sup>th</sup>, September 2<sup>nd</sup>, 4<sup>th</sup>, (6<sup>th</sup>; 08:00 - 17:00), 9<sup>th</sup>, 11<sup>th</sup>, & (13<sup>th</sup>; 08:00 -  
17:00); 18:00 - 22:00 **Instructor: Rhonda Weaver**

**Entry Level Interior Firefighter:** The goal of this program is to introduce entry level firefighters to the basic knowledge, skills, and abilities as they relate to interior fireground operations. This course is designed to introduce new firefighters to interior fireground operations including nozzles and streams, SCBA, rescue ventilation, fire suppression, salvage, and firefighter survival. This is the fourth of four courses in the curriculum.

**Dates:** June 14<sup>th</sup>, 15<sup>th</sup>, 22<sup>nd</sup>, 29<sup>th</sup>, July 19<sup>th</sup>, 20<sup>th</sup>, 26<sup>th</sup> & 27<sup>th</sup>; 08:00 – 17:00 **Instructor: Bill Hoover**  
October 7<sup>th</sup>, 9<sup>th</sup>, 14<sup>th</sup>, 16<sup>th</sup>, 21<sup>st</sup>, 23<sup>rd</sup>, (25<sup>th</sup>: 08:00 - 16:30), 28<sup>th</sup>, 30<sup>th</sup>, (November 1<sup>st</sup>:  
08:00 - 16:30), 4<sup>th</sup>, 6<sup>th</sup>, & (8<sup>th</sup>: 08:00 - 16:30); 18:30 - 22:30 **Instructor: Neil Gunnet**

**Fire Attack in Sprinklered Properties:** This course gives an overview of how sprinkler systems are designed and constructed, why some large loss fires occur in spite of the presence of sprinklers, and how the fire department can minimize the change of such an occurrence.

**Dates:** October 5<sup>th</sup>: 08:00 – 15:30

**Instructor: Stephen Lane**

**Fire Instructor I:** This course establishes the foundation for delivery of training programs with the emergency services spectrum. Emphasis is placed on professional delivery, organization, and methodologies of teaching. Students will develop lesson plans, curriculum presentations, and evaluation tools. Successful completion of the program is dependant upon practical skill demonstration, including a presentation, and a multiple choice written examination.

**Dates:** September 2<sup>nd</sup>, 4<sup>th</sup>, (7<sup>th</sup>: 08:00 - 17:00), 11<sup>th</sup>, 13<sup>th</sup>, (14<sup>th</sup>: 08:00 - 17:00) & 16<sup>th</sup>;  
(18:30 - 22:30)

**Instructor: Daniel Hoff**

**Haz-Mat First Responder Operations:** This course, distributed by the International Association of Fire Fighters, trains the student in those knowledge and skills required at the First Responder/Operations level of hazardous materials response. The course content is heavily oriented toward fire suppression personnel.

**Dates:** May 5<sup>th</sup>, 6<sup>th</sup>, 12<sup>th</sup>, 13<sup>th</sup>, 19<sup>th</sup>, & 20<sup>th</sup>; 18:30 – 22:30

**Instructor: Stephen Lane**

July 7<sup>th</sup>, 8<sup>th</sup>, 14<sup>th</sup>, 15<sup>th</sup>, 21<sup>st</sup>, & 22<sup>nd</sup>; 18:30 – 22:30

**Instructor: Stephen Lane**

September 8<sup>th</sup>, 9<sup>th</sup>, 15<sup>th</sup>, 16<sup>th</sup>, 22<sup>nd</sup>, & 23<sup>rd</sup>; 18:30 – 22:30

**Instructor: Stephen Lane**

November 3<sup>rd</sup>, 4<sup>th</sup>, 10<sup>th</sup>, 11<sup>th</sup>, 17<sup>th</sup> & 18<sup>th</sup>; 18:30 – 22:30

**Instructor: Stephen Lane**

**Haz-Mat Awareness Level Annual Refresher (HMAR):** This course will provide the student with a basic review of skills needed to identify hazardous materials problems, recognize the presence of hazardous materials, identify hazardous materials and their associated dangers. This course will meet the requirements for annual review under 29 CFR 1910.120.

**Dates:** June 2<sup>nd</sup>; 18:30 – 20:30

**Instructor: Stephen Lane**

August 4<sup>th</sup>; 18:30 – 20:30

**Instructor: Stephen Lane**

October 6<sup>th</sup>; 18:30 – 20:30

**Instructor: Stephen Lane**

December 1<sup>st</sup>; 18:30 – 20:30

**Instructor: Stephen Lane**

**Haz-Mat Operations Level Annual Refresher (HMOR):** This course will allow a Haz-Mat emergency responder at the First Responder Operations level to receive refresher training as required annually by Federal Regulation.

**Dates:** June 2<sup>nd</sup> & 4<sup>th</sup>; 18:30 – 22:30

**Instructor: Stephen Lane**

August 4<sup>th</sup> & 5<sup>th</sup>; 18:30 – 22:30

**Instructor: Stephen Lane**

October 6<sup>th</sup> & 7<sup>th</sup>; 18:30 – 22:30

**Instructor: Stephen Lane**

**December 1<sup>st</sup> & 2<sup>nd</sup>; 18:30 - 22:30**

**Instructor: Stephen Lane**

**Haz-Mat First Responder Awareness (RIHM):** Seven tasks have been identified as part of a process for analyzing the hazardous material problem. This course focuses on the first four tasks in this process: 1.) Detecting the presence of hazardous materials 2.) Initiating command and control activities 3.) Surveying the hazardous material incident; and 4.) Collecting and interpreting hazard and response information. 5.) The tasks not addressed in this course are discussed in other courses. This course describes how each step is performed and then asks the participants to apply the concepts presented to a particular activity so that the participants can evaluate their mastery of the concept.

**Dates: May 27<sup>th</sup>; 18:30 – 22:30**

**Instructor: Stephen Lane**

**July 2<sup>nd</sup>; 18:30 – 22:30**

**Instructor: Stephen Lane**

**September 3<sup>rd</sup>; 18:30 – 22:30**

**Instructor: Stephen Lane**

**December 17<sup>th</sup>; 18:30 – 22:30**

**Instructor: Stephen Lane**

**Incident Safety Officer:** The Safety officers responsibilities fall into two clear cut categories: those associated with responding at the incident scene, and those associated with managing the day to day affairs of the department. The Incident Safety Officer (ISO) course is focused on the incident and the role the Safety Officer plays as part of the Command Staff. The target audience is Company Officers (CO) who are experienced in firefighter safety issues and are familiar with an Incident Command System, hazardous materials management, and related emergency operations. The program provides the student with the decision-making process and skills required to recognize unsafe acts and conditions and take appropriate corrective actions.

**Dates: (June 8<sup>th</sup>: 08:00 – 16:30), & 9<sup>th</sup> & 11<sup>th</sup>; (18:30 – 22:30)**

**Instructor: Stephen Lane**

**(August 3<sup>rd</sup>: 08:00 – 16:30), & 6<sup>th</sup> & 7<sup>th</sup>; (18:30 – 22:30)**

**Instructor: Stephen Lane**

**October 8<sup>th</sup> & 9<sup>th</sup> (18:30 – 22:30), & 11<sup>th</sup>; (08:00 – 16:30)**

**Instructor: Stephen Lane**

**December 8<sup>th</sup> & 10<sup>th</sup> (18:30 – 22:30), & 13<sup>th</sup> (08:00 – 16:30)**

**Instructor: Stephen Lane**

**Introduction to Confined Space Emergencies – Awareness:** (FARM INCIDENTS) This awareness module is designed to teach emergency providers (fire, rescue, EMS, & police) how to properly size-up and develop an initial strategy for managing a farm confined space emergency. Responders will learn OSHA 29 CFR 1910.146 applies to emergencies involving various confined spaces found on the farm. Emphasis will be placed on identifying typical farm confined spaces (silos, grain bins, manure storages, tanks, controlled atmosphere storages, etc.); reviewing confined space entry requirements and procedures; and identifying level of response for emergency response agencies.

**Dates: October 25<sup>th</sup>; 08:00 – 17:00**

**Instructor: Eric Rickenbach**

**Introduction to Confined Space Emergencies – Operations:** (FARM INCIDENTS) The Operations level will include Silo, grain bins, and manure storage units.

**Dates: October 26<sup>th</sup>; 08:00 – 17:00**

**Instructor: Eric Rickenbach**

**Introduction to Farm Emergencies:** This module is designed to give participants an overview of local farm emergencies. It will involve demonstrations and discussions of farm machinery, structures, chemicals, and people. This awareness course is designed to teach emergency responders how to recognize and initially manage (size-up) hazards that they will encounter when arriving at the scene of an agricultural emergency, and how to effectively preplan for farm-related emergencies in their communities.

**Dates: April 19<sup>th</sup>; 08:00 – 17:00**

**Instructor: Eric Rickenbach**

**Introduction to Volunteer Emergency Services Management:** This course is designed for those individuals whose responsibility is to manage any of the facets of a volunteer emergency services organization. New administrative and line officers with less than one year of experience will derive the most of this program. Seasoned organizational officers will hone their knowledge and basic skills as a manager. Introduction to Volunteer Emergency Services Management demonstrates the basic management techniques needed to effectively administer a volunteer emergency services organization. Participants will explore the transition a member has to make when they step into the role of management in their organization. Through the use of small group activities, the participants will learn and apply basic principles of communication, motivation, problem solving, decision making, and the management process to accomplish their organization's mission and goals.

**Dates: June 10<sup>th</sup> & 12<sup>th</sup> (18:30 – 22:30), & 14<sup>th</sup>; (08:00 – 16:30)**

**Instructor: Stephen Lane**

**August 11<sup>th</sup> & 13<sup>th</sup> (18:30 – 22:30), & 16<sup>th</sup>; (08:00 – 16:30)**

**Instructor: Stephen Lane**

**October 12<sup>th</sup> (08:00 – 16:30), & 13<sup>th</sup> & 14<sup>th</sup>; (18:30 – 22:30)**

**Instructor: Stephen Lane**

**December 9<sup>th</sup> & 11<sup>th</sup> (18:30 – 22:30), & 14<sup>th</sup>; (08:00 – 16:30)**

**Instructor: Stephen Lane**

**Legal Aspects:** This is a must course for all emergency service personnel. In today's society we have become more vulnerable to litigation than ever before, as evidenced by the number of law suits filed in Pennsylvania against Fire and Ambulance Departments. There are Fire Departments and Ambulance Departments being sued in Pennsylvania. It is in your own personal best interest, and in the best interest of the municipality, that you plan to attend this seminar. The object of this course is to give you a working knowledge of the various statutes, case law decisions and ordinances that directly affect the operation of volunteer fire, rescue or ambulance organizations. The class is structured so as to help you understand the general legal ramifications of your office, as well as your fire department's basic operations. Decisions are made, at the scene of an emergency, not only by officers but by non-officers as well, and these decisions will be subject to close scrutiny, if a law suit is ultimately filed by some unhappy third party. In this day and age one must be able to protect oneself on the fire ground legally, as well as physically. Each individual enrolled should bring a copy of his Standard Operating Procedures, the department's By-laws and the department's Constitution.

**Dates: May 7<sup>th</sup>, 8<sup>th</sup>, 14<sup>th</sup>, & 15<sup>th</sup>; 18:30 – 22:30**

**Instructor: Stephen Lane**

**July 16<sup>th</sup> & 17<sup>th</sup> (18:30 – 22:30), & 19<sup>th</sup>; (08:00 – 16:30)**

**Instructor: Stephen Lane**

**September 7<sup>th</sup> (08:00 – 16:30), & 10<sup>th</sup> & 11<sup>th</sup>; (18:30 – 16:30)**

**Instructor: Stephen Lane**

**November 5<sup>th</sup> & 6<sup>th</sup> (18:30 – 22:30), & 8<sup>th</sup>; (08:00 – 16:30)**

**Instructor: Stephen Lane**

**Managing Farm Chemical Emergencies:** This module is designed to teach emergency providers (fire, rescue, EMS, & police) how to properly size-up and manage emergencies that involve agricultural chemicals. Emphasis is put on teamwork to efficiently treat patients and protect property of chemical emergencies. Following NFPA 472: Standards for Professional Competence of Responders to Hazardous Materials Incidents, and 473 Standard for Competencies for EMS Personnel Responding to Hazardous Materials Incidents, participants will learn how to quickly calculate their hazard exposure to the various materials that they encounter, how to choose the appropriate personal protection for the specific incident, how to field decontaminate a patient about proper communication and resources, and patient care issues. This operations/technical level training will teach responders how to efficiently manage farm chemical emergencies.

**Dates: October 11<sup>th</sup>; 08:00 – 17:00**

**Instructor: Eric Rickenbach**

**Managing Machinery Entanglements:** This technical module is designed to teach emergency providers (fire, rescue, EMS, & police) how to properly stabilize farm machines and efficiently extricate a person that has become trapped by the machine. Farm machines are involved in many serious injuries and deaths on farms, and responders need to understand how to manage these emergencies without causing further harm to the patient or any harm to the rescuers and bystanders. Participants will understand the typical hazard/injury areas of machines and will understand many similarities between farm and non-farm machines. Teamwork is stressed to provide the best care possible to the patient.

**Dates: October 12<sup>th</sup>; 08:00 – 17:00**

**Instructor: Eric Rickenbach**

**Managing Tractor Emergencies:** This technical module is designed to teach emergency responders (fire, rescue, EMS, & police) how to properly manage emergencies involving tractors in various settings. Tractors are involved in nearly 50 percent of farm deaths and disabling injuries. Rural responders must be proficient in how to manage incidents involving tractors whether on the farm or off. Tractors are not only used on the farm but on construction sites, parks and recreation areas, and highway. Therefore, this module is applicable to non-rural emergency responders as well.

**Dates: April 20<sup>th</sup>; 08:00 – 17:00**

**Instructor: Eric Rickenbach**

**NIMS-100 (Orientation):** The NIMS-100 course is the basic level of the series. It is provided by an Instructor. A test will be provided at the end of the course for Certification.

**Dates: April 28<sup>th</sup>; 18:30 – 22:30**

**Instructor: Stephen Lane**

**NIMS-700:** The NIMS-700 course is the basic level of series geared towards first responders. It is provided by an Instructor. A test will be provided at the end of the course for Certification.

**Dates: April 22<sup>nd</sup>; 18:30 – 21:30**

**Instructor: Stephen Lane**

**NIMS-ICS for the Fire Service:** Incident command is a concept given considerable attention within the fire service. This course will help students recognize the importance of an effective system and understand the various components that provide the basis for that system. The requirements necessary to make the system functional will be discussed. With DHS assistance in providing and mandating a single ICS, this Nation's emergency response personnel will move in the direction of greater management harmony, which will ensure much more effective management of America's major emergencies. It is extremely important that the students realize that the ICS has application in small and large fire departments; at simple and complex events; and in career, combination, and volunteer organizations. Students will be allowed to compare benefits of the ICS to their own department or jurisdiction to demonstrate to themselves that the effective implementation of the ICS and its subsequent use will have a positive effect on their incident management.

**Dates: May 21<sup>st</sup>, 22<sup>nd</sup>, 28<sup>th</sup>, & 29<sup>th</sup>; 08:00 – 16:30**

**Instructor: Stephen Lane**

**July 20<sup>th</sup> (08:00 – 16:30), & 23<sup>rd</sup> & 24<sup>th</sup>; (18:30 – 22:30)**

**Instructor: Stephen Lane**

**September 13<sup>th</sup> & 14<sup>th</sup>; 08:00 – 16:30**

**Instructor: Stephen Lane**

**November 9<sup>th</sup> (08:00 – 16:30), & 12<sup>th</sup> & 13<sup>th</sup>; (18:30 – 22:30)**

**Instructor: Stephen Lane**

**Pump Operations I:** This course provides the fire fighter with an introduction to basic pump construction and theory as well as operating techniques. Emphasis is placed on getting water to the

pump, getting water from the pump for hose streams, and prevention of common mistakes in pump operations.

**Dates:** May 17<sup>th</sup> & 18<sup>th</sup>; 08:00 – 16:30 **Instructor: Stephen Lane**  
July 26<sup>th</sup> & 27<sup>th</sup>; 08:00 – 16:30 **Instructor: Stephen Lane**  
August 9<sup>th</sup> & 10<sup>th</sup>; 08:00 – 16:30 **Instructor: Stephen Lane**  
September 17<sup>th</sup> & 18<sup>th</sup> (18:30 - 22:30), & 20<sup>th</sup>; (08:00 - 16:30) **Instructor: Stephen Lane**  
November 23<sup>rd</sup> (08:00 – 16:30), & 24<sup>th</sup> & 25<sup>th</sup>; (18:30 – 22:30) **Instructor: Stephen Lane**

**Pump Operations II:** This course is designed to instruct the student in advanced techniques of operating pumps. Topics covered include friction loss, relay pumping, master streams, and elevated master streams.

**Dates:** June 17<sup>th</sup> & 19<sup>th</sup> (18:30 – 22:30), & 21<sup>st</sup>; (08:00 – 16:30) **Instructor: Stephen Lane**  
August 23<sup>rd</sup> & 24<sup>th</sup>; 08:00 – 16:30 **Instructor: Stephen Lane**  
October 15<sup>th</sup> (08:00 – 16:30), & 16<sup>th</sup> & 18<sup>th</sup>; (18:30 – 22:30) **Instructor: Stephen Lane**

**Rural Fireground Water Movement:** This course introduces the student to basic methods of water movement in the rural area for fire fighting. Tank trucks and large diameter hose are utilized. Safe, efficient and recommended methods are discussed, demonstrated, and practiced.

**Dates:** June 24<sup>th</sup> & 26<sup>th</sup> (18:30 – 22:30), & 28<sup>th</sup>; (08:00 – 16:30) **Instructor: Stephen Lane**  
September 24<sup>th</sup> & 25<sup>th</sup> (18:30 – 22:30), & 27<sup>th</sup>; (08:00 – 16:30) **Instructor: Stephen Lane**  
November 19<sup>th</sup> & 20<sup>th</sup> (18:30 – 22:30), & 22<sup>nd</sup>; (08:00 – 16:30) **Instructor: Stephen Lane**

**Sprint Car Safety Seminar:** This one day comprehensive educational event is designed for track safety workers at Sprint Car Events. The lead instructor, Dave Dalrymple, is an internationally recognized vehicle rescue instructor and is certified in Race Rescue from SCCA. The topics to be covered include: Sprint Care Construction Features, Driver/Patient Extrication, Driver/Patient Considerations, Hands on Rescue Training, and Hands on alcohol fuel firefighting. Class is limited to 30 students.

**Dates:** June 15<sup>th</sup>, 2008; 08:00 - 17:00 **CLASS FULL** **Instructor: Dave Dalrymple**

**Structural Burn Session:** This course will provide the student with a review and application of the techniques used in safe fire fighting practices in an actual fire environment. Emphasis is placed on safety for both interior and exterior operations.

**Dates:** June 16<sup>th</sup> & 19<sup>th</sup>; (18:30 - 22:30), & 21<sup>st</sup>; (08:00 - 17:00) **Instructor: Dan Hoff**  
October 25<sup>th</sup> & 26<sup>th</sup>; 08:00 – 17:00 **Instructor: Dan Hoff**
